CURRENT DELIVERY STATUS

Delivered 20

PICKUP VOLUME

OPEN PAST EXPECTED DATE	DELIVERED WITHOUT POD	INVOICES MISSING
0	0	0

Current status of shipments grouped by pickup date. Expected drop dates are estimates; no actual delivery time or on-time delivery metric is recorded. Document indicators show attached references, not file availability.

Operational attention & data coverage

Measure	Value
Open past expected date	0
Delivered without POD reference	0
Without invoice reference	0
Unassigned client	0
Pickup date missing/invalid (included)	0
Undated excluded by date filter	0
Invalid measurements excluded from totals (shipments)	0

Client performance · top 15 by shipment volume

Client	Shipments	Delivered	Pieces	Weight (kg)
PDF test client	20	20	250	440.000

Routes · top 15 by shipment volume

Pickup → drop	Shipments
Delhi → Mumbai	20

Attention register · first 50 of 0 shipments

Shipment	Client	Attention flags
No attention flags		

The full filtered shipment register follows. Client/route summary tables show the top 15; the attention summary shows the first 50. Blank measurements are excluded from totals.

Shipment register · 20 saved shipments

All time · All clients · All statuses

All selected shipments are included. Wide registers are divided into column groups; row numbers and the selected shipment identifier connect the groups.

Column group 1 of 3 · 20 shipments

Row	Shipment identifier	Identifier type	Client	Current status	Pickup date	Expected drop date
